### Strategic Plan Highlight

- **Student Success & Support:** Following a Student Services planning retreat, the team is developing an implementation plan for **Student Community Orientation** to help connect students with services and spaces of belonging. (Goal 1, Action Step 1)
- **Responsiveness to our Community: Equitable Access:** The District engaged TLCD Architecture to develop a comprehensive room numbering and signage standard, building on the design guidelines in the Facilities 2030 Plan. The first phase focuses on the Petaluma Campus, and the Doyle Library and Bertolini Student Center on the Santa Rosa Campus with multilingual standards incorporated to improve accessibility and inclusion. The proposed package is expected to be reviewed by the District Facilities Advisory Committee by the end of fall semester.
- The **HSI Advisory Group** convened its first meeting on September 29 and will advance the work of the HSI Transformation initiative. In support of **Student Success & Support** (Goal 1, multiple action steps) participatory governance, and the IDEAA Taskforce, the group is also aligned with SRJC's IEPI (Institutional Effectiveness Partnership Initiative) plan, which priorities building the HSI Advisory Group, strengthening noncredit-to-credit pathways, improving strategic communications, expanding professional development, and creating a Latine Student Center and Resource Hub.

### Issues For Awareness

- **Annual External Audit:** Fieldwork began September 22 for the FY 2024/25 external audit, with six auditors conducting a two-week review of financial and compliance areas. Follow-up work will continue through mid-November, with the final audit report presented to the Board in December 2025.
